

ENTERPRISE CARRIER MANAGEMENT

Powering delivery - so you can simplify despatch and save time

# GFS TECHNOLOGY

Full suite of integrated delivery software to reduce IT burden and cost and streamline operations

From delivery options at the checkout, to labelling, parcel routing, tracking and reporting, GFS Technology supports your carrier services throughout the parcel journey.

With a range of products and integrations, each smart technology product is designed to meet your business needs to boost operational productivity and visibility.

GFS Technology is one third of The GFS Group, which also comprises of GFS Parcels and GFS Logistics, to provide unique delivery solutions from checkout to doorstep - all managed through the 'one GFS' relationship.

We help you:

SIMPLIFY DESPATCH

REDUCE COSTS

DRIVE SALES

SCALE OPERATIONS FOR PEAK

So you can grow your business

A simple, single integration that consolidates multi-channel and multi-carrier despatch for maximum shipping efficiency

We take care of the entire delivery journey from checkout to doorstep - anywhere in the world

## 1. POINT OF SALE

You customer chooses a delivery option that best suits their needs

ONLINE STORE

MARKETPLACE

### GFS Checkout
